

“Does your person have  ?”

If the person says “YES” then flip down all of the people that DON’T.

If the person says “NO” then flip down all of the people that DO.

“Is your person _____ ?”

Guess Who

How to Make Instructions:

1. Cut out all of the attribute squares individually.
2. Laminate the board with questions and the attribute squares.
3. Cut out the laminated squares and add hard velcro on the back.
4. Add a soft velcro square in the black box next to the question "Does your person have?"
5. Add soft velcro strips to the top of the question board and place the attribute squares on the soft strips. It should look like the picture below when you are finished.
6. Watch the video for how to play. Note: you do not need to put a pocket on the back of the question board, you can place a container on the right side for them to put the attribute squares in so they know what they asked already.
